What would the estimated balance be after 16 months based on a £1,000 deposit?	**£1,053.90** This would be the balance after 16 months if £1,000 was paid in on 1 August 2026 all interest was paid back into the account, and no money was taken out or paid in. This illustration is just an example to help you compare accounts. It does not take into account any individual circumstances.

We'll write to you at least 14 days before the account matures with details of how you can re-invest your savings with us, or take out some or all of your money. There'll be a default option – another fixed rate saver with us (re-investment account). The length of the fixed re-investment account will either be shorter, the same or no more than six months longer than the duration of your current fixed rate saver. At maturity, the money in this account will be automatically re-invested into the default option unless you have asked us to do something else with it. However, you'll have the option to close your fixed rate saver, without being charged, within

	21 days after the end of your fixed period.
Additional information	This is a limited issue account, so we may stop accepting applications at any time. We pay your interest gross. The gross rate is the interest payable before the deduction of tax. *AER stands for Annual Equivalent Rate and illustrates what the interest rate would be if interest was paid and added each year.
